

Announcement of the Accepted Proposals for CIES Collaborative Research in FY2017

October 10, 2017

Center for Innovative Integrated Electronic Systems
Tohoku University

As a result of solicitation of applications, 2 applications were adopted by CIES collaborative research selection committee.

Accepted proposals in FY2017 are as follows.

Type I : none / Type II : 2 / Type III : none / Type IV : none

1	Name	Yasushi Endo
	Affiliation	School of Engineering, Tohoku University
	Area	(1) Spintronics
	Type	II : Support for young researchers
	Research Title	Study on the magnetization dynamics in magnetic ultra-thin film by a new transmission line typed probing measurement technique
2	Name	Takahide Oya
	Affiliation	Faculty of Engineering, Yokohama National University
	Area	(6) Brain-type intelligent system
	Type	II : Support for young researchers
	Research Title	Development of neuromorphic quantum circuits with dopant periodical structures
